Norman, OK • (918) 504-1257 • hey@bryson.cc

EDUCATION

University of Oklahoma, Norman, OK — B.S. C.S.

JANUARY 2016 - PRESENT

RELEVANT EXPERIENCE

Lead Software Engineer, WellCaddie — Norman, OK

JUNE 2018 - PRESENT

Currently **oversee and manage** a team of engineers in the development of the WellCaddie software line. Responsibilities include **coordinating both the software and hardware development divisions** of the company to produce a unified product package to sell to remote oil operators.

(Senior) Software Engineer, WellCaddie — Norman, OK

NOVEMBER 2016 - JUNE 2018

Implemented and facilitated a complete overhaul and refactor of all frontend and backend services of the WellCaddie platform. Directly **resulted in a company valuation increase of several million dollars.**

Software Engineer, University of Oklahoma — Norman, OK

MAY 2016 - AUGUST 2017

Helped establish the **first** makerspace at the university, developing workflows and custom tooling for managing 3D printing services. Also helped develop O.V.A.L., a VR pedagogy tool currently **used by universities nationwide**. O.V.A.L. went on to host the **world's first** remote pedagogy session in virtual reality.

PROJECT HIGHLIGHTS

Seedling — Chinese to English phonetic transliteration, patented

AUGUST - OCTOBER 2017

Athena — Mobile LMS Video Platform, MLH Hackathon Winner

APRIL 2017 - MARCH 2018
